

The Easter story in black & white

At Easter we celebrate God's incredible love for all people, seen in the cross of Jesus Christ who took on the wrongs of the world so that we could reconnect with our Creator.

Easter reminds us that we are not alone in this world. It points us to the possibilities of a life of hope, meaning and forgiveness - found in relationship with God - a God who loves and cares for us like no other.

**Here is the reason to truly
celebrate this season.**
